## Overview

This release is a fourth scheduled maintenance release of the VAT Reporting application for the month of January. In this release, we have provided updates for FR VAT return.

## Change Log

Ref	Description
VR-1791	FR - New periodic VAT return - PDF.
VR-1792	In release 17.1.3, releasing RO was giving warning message. This has been corrected in this release.

## Upgrade Procedure

This section provides details on how to update to the latest version. For the purposes of this documentation, we assume that you have an existing installation and you have the necessary access privilege to perform the upgrade.

## Download

The latest version of VAT Reporting is available here:

<http://www.vatat.com/installation/VATReporting.html>

## Database Back Up

Before installing the update of VAT Reporting, close any running VAT Reporting windows, and take a full backup of the SQL Database. This can be done in the **SQL Server Management Studio**, from the database right-click menu **Tasks > Back Up**.
